

A wide-angle photograph of a snowy mountain landscape. Two skiers are on a groomed trail. The skier in the foreground is wearing a pink jacket and black pants, while the skier in the background is wearing a light blue jacket and black pants. The trail is flanked by dense evergreen trees heavily laden with snow. The sky is overcast and grey.

Noname Workbook

AW 25/26

We Offer

Simplicity & Durability

We design our products based on our users' needs. We make sports gear available for everyone - let's simplify sports together!

We only use material of the highest quality - so our users can do what they love, over and over again.

We Live and Breathe Sports

At Noname, we live and breathe sports. It's in our veins and it's built into our products.

Since 1999, we have been making it easier for athletes of all levels to pursue their passions by offering high-quality training. At Noname, we uphold the highest standards in sport, combining exceptional functionality with stylish designs, all crafted by people who share a love for their sport.

We offer training and racing clothes with a long lifetime - so you can do what you love, over and over again, without worrying about the gear.

In this workbook you'll find the winter collection of 25/26

Eyewear for Everyone and Every Activity

All our Sport Glasses are the ideal eyewear for XC skiing, running, and biking enthusiasts. Featuring a Category 3 lens, the glasses block 82-92% of UV light, providing superior eye protection under the sun's rays. The TR90 frame offers durability and flexibility.

The TR90 material allows you to easily bend the frame according to your face structure which keeps them secure during intense and bumpy outdoor activities.

The glasses come with a hard case for safe storage, a convenient pouch for on-the-go protection, and a cleaning cloth for easy maintenance.

SEEFELD GLASSES

XC skiing, running and biking glasses. Lens cat. 3 suitable for sunny weather. Comes with hard case, pouch and cleaning cloth.

The TR90 frame offers durability and flexibility. The TR90 material allows you to easily bend the frame to fit your face structure, keeping them secure during intense or bumpy outdoor activity.
